

I would like to thank you for giving my students the opportunity to view the film, "Secret Lives: Hidden Children and Their Rescuers" and for the privilege of seeing Mrs. Anne Levy in person and hearing her courageous story of how she and her family withstood the horror and degradation of the Holocaust. She brought history alive for my students, giving them a personal connection that could never be achieved through just print or pictures. You along with Mrs. Levy have given my students a priceless gift that will impact them for the rest of their lives. For this, we are very appreciative and grateful.
